

# Visual Analysis on WeRateDogs

This is the Visual Analysis on **WeRateDogs** Dataset. As it has a lot of breed so I have decided to select **top 5** for this analysis.

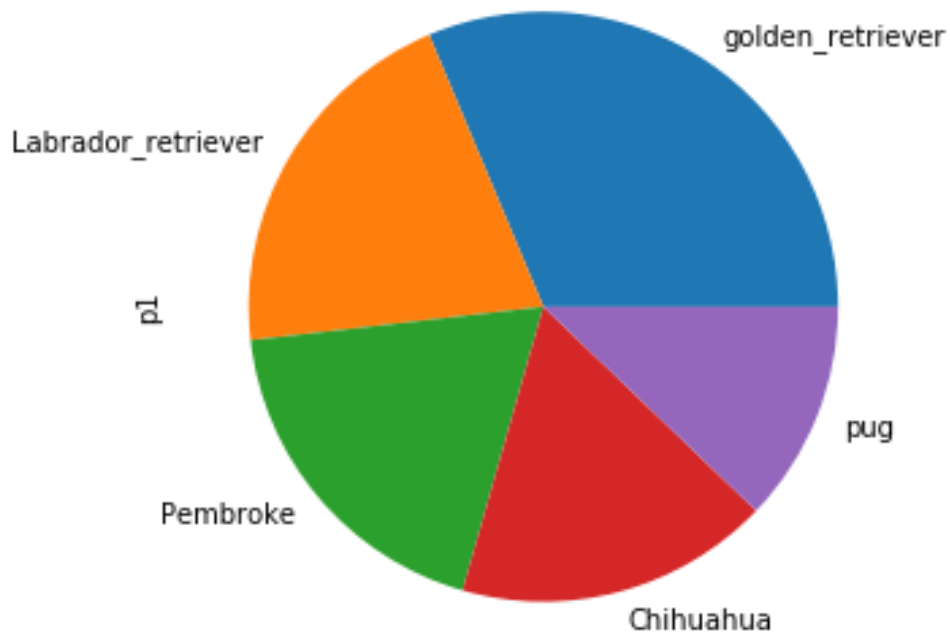

## Top 5 Most Twitted Dogs:

Breed	Tweets
Golder retriever	147
Labrador retriever	96
Pembroke	88
Chihuahua	81
Pug	57

## Bar Graph of Most Twitted Dogs:

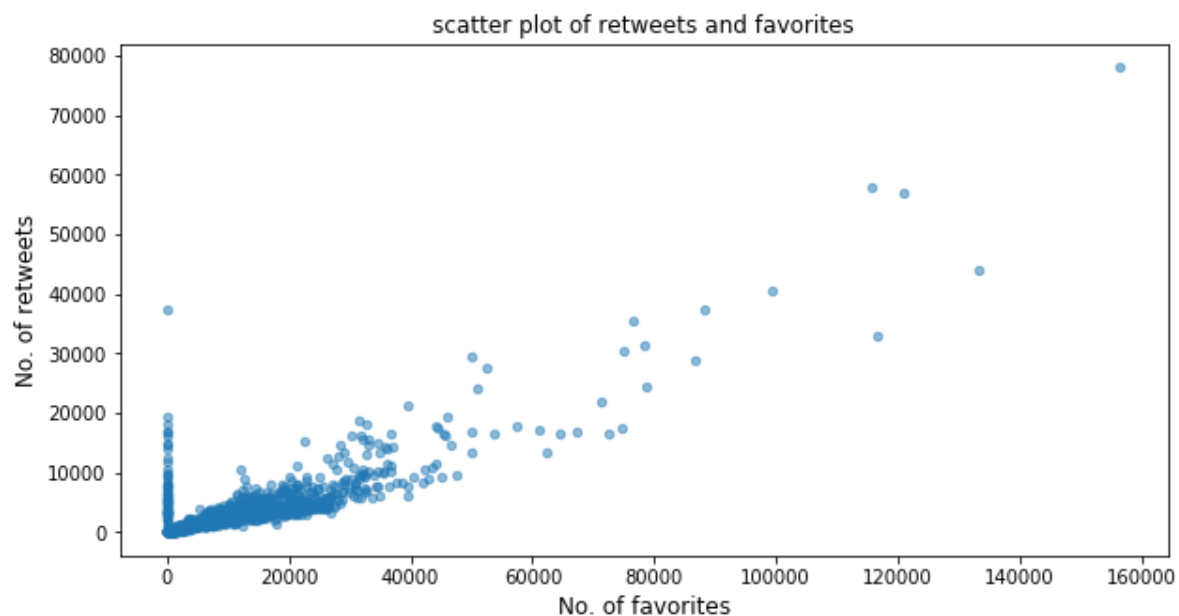

## Pie Chart Of Most Twitted Dogs:

As From the above Graph, we can say that the most twitted dog is **Golder retriever** with 147 tweets, And the least twitted dog is **pug** with 57 tweets.

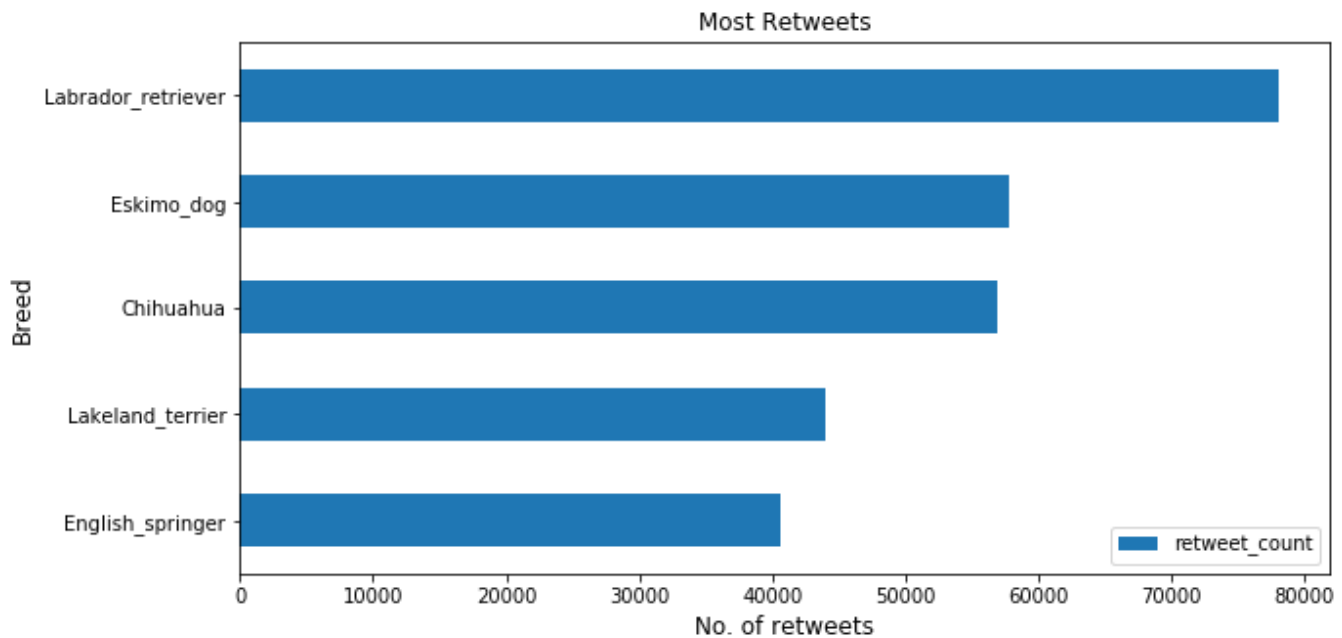

## Favorite and Retweet:

(Scatter Plot Between Retweets and Favorites):

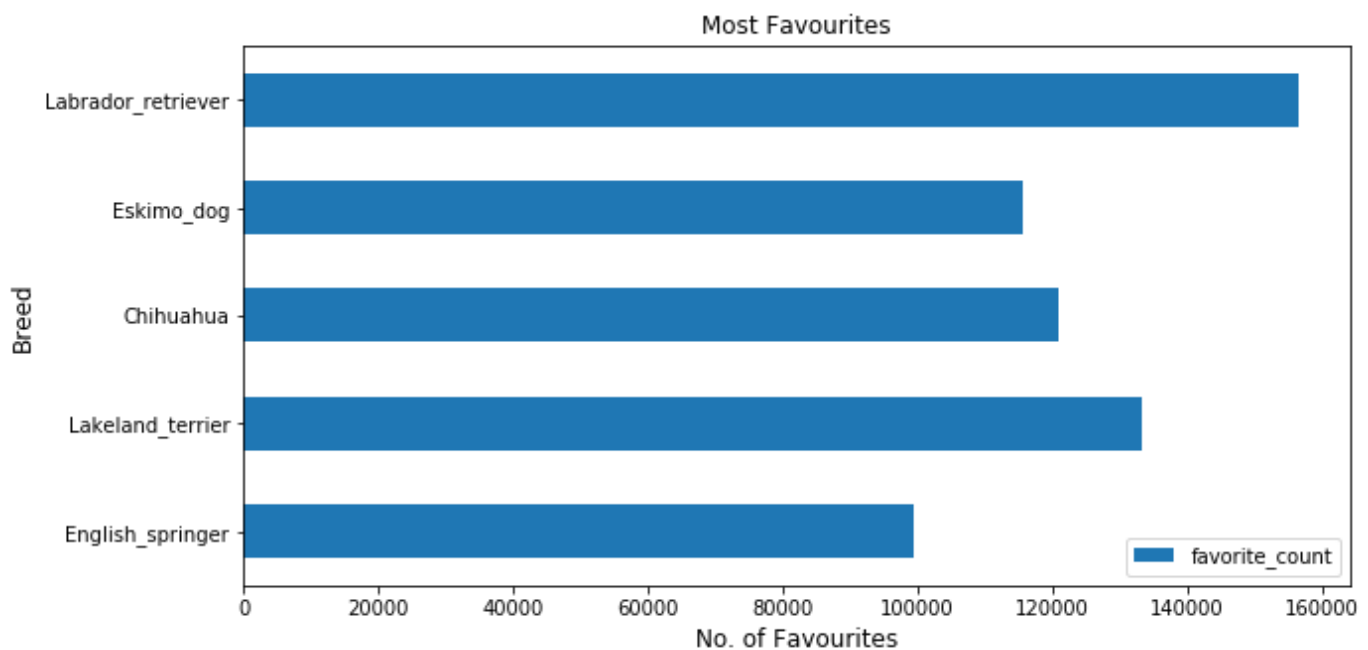

As we can see there is co-relation between **retweets** and **favorites** for every tweet. So, we can say the post with more retweets are favorite or vice-versa.

## Top 5 Most Popular Breed: (Bar Graph of Most Favorite Breed)

## (Bar Graph of Most Favorite Breed)

As we can see the Most Retweeted and Most Favorite breed is Labrador Retriever. Well I was expecting Golden Retriever but that's not the case.

## Conclusion:

- We have noticed 5 types of breed:
  - ◆ Golden retriever
  - ◆ Labrador retriever
  - ◆ Pembroke
  - ◆ Chihuahua
  - ◆ Pugand in which most tweeted one is Golden **Retriever** and another breed are not even near.
- We have seen the Co-relation between **retweets** and **favorites** means the post with more retweets are favorite or vice-versa which makes sense.
- And From all the 5 Breed the most favorite and retweeted breed is **Labrador Retriever**.
